We (the Presenters) have no financial interest to disclose.

This continuing education activity is managed and accredited by AffinityCE/Professional Education Services Group in cooperation with HRSA and LRG. PESG, HRSA, LRG and all accrediting organization do not support or endorse any product or service mentioned in this activity.

PESG, HRSA, and LRG staff as well as planners and reviewers have no relevant financial or nonfinancial interest to disclose.

Commercial Support was not received for this activity.

Learning Objectives

At the conclusion of this activity, the participant will be able to:

1. Participants will learn about rationale for use of virtual visits in a Ryan White Part C Clinic.
2. Participants will learn about software/hardware options for use in virtual visits.
3. Participants will learn about consent and documentation guidelines surrounding virtual visits.
4. Participants will learn about third party billing for virtual visits.

Why Consider Virtual Visits?

Western Colorado HIV Specialty Care Clinic Service Area (light gray)

Why Consider Virtual Visits?

- Improved patient engagement
 - Improved viral suppression
 - Increased CD4 counts
 - Lower Rates of transmission
- Cost Effective
- Improved patient satisfaction

Technology

- What platform is currently being used at the practice or affiliate hospital?
- HIPAA secure internet connection.
- Safe data transmission.
- Confidentiality assured at both originating and distant site.

Consent and Documentation

- Consent guidelines
- EMR Templates

Downloading VidyoMobile App

1. Search in your device app store for "VidyoMobile"
2. Install the app when you find it

3. Open the app once it's been installed
4. When asked for Portal, enter <https://virtualhealth.sclhealth.org>
5. You're ready to log in! Please see your VidyoMobile User Guide for directions on logging in and using the app

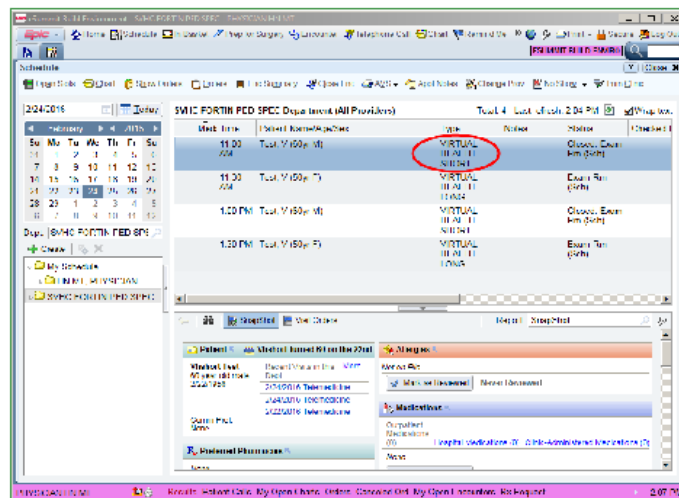

Virtual Health Visit Types for Ambulatory

Description: The *Telemedicine 30* visit type is now called *Virtual Health Short* and the *Telemedicine 60* visit type is now called *Virtual Health Long*. This tip sheet will review each Virtual Health visit type and how you can review the encounter information in Chart Review.

Virtual Health Short

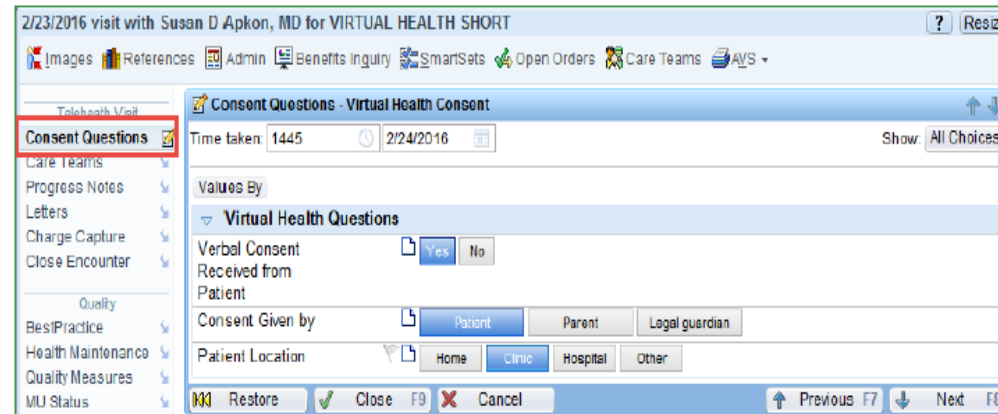

Steps:

1. Go to the provider schedule and double click on the Virtual Health Short visit type.

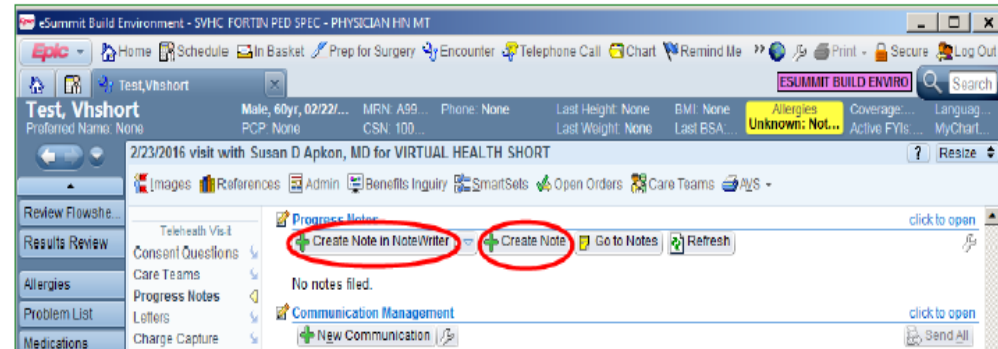

i The Telehealth Visit navigator for the Virtual Health Short visit will appear differently, compared to a standard office visit navigator.

- Click on the **Consent Questions** section and complete all (3) questions.

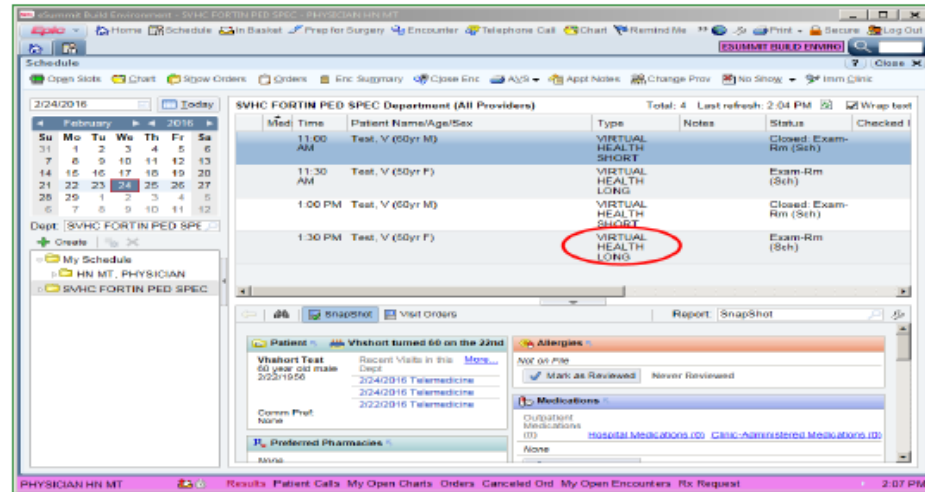

- Select the **Care Teams** section and update if needed.
- Create the visit note by clicking on the **Progress Notes** section and selecting either the **Create Note in Notewriter** or **Create Note**.

 The Letters and Charge Capture sections are used just like a standard office visit encounter.

- Select **Close the Encounter** upon completion of the appropriate documentation. A progress note is required.

Day	Time	Patient Name/Age/Sex	Type	Status	Checked
Su	11:00 AM	Test, V (50yr M)	VIRTUAL HEALTH SCRIPT	Closed: Exam-Rm (Sch)	
Mo	11:30 AM	Test, V (50yr F)	VIRTUAL HEALTH LONG	Exam-Rm (Sch)	
Tu	1:00 PM	Test, V (50yr M)	VIRTUAL HEALTH SCRIPT	Closed: Exam-Rm (Sch)	
Wed	1:30 PM	Test, V (50yr F)	VIRTUAL HEALTH LONG	Exam-Rm (Sch)	

2. Click on the **Consent Questions** section and complete all (3) questions.

Consent Questions - Virtual Health Consent

Time taken: 1512 | 2/24/2016

Virtual Health Questions

Verbal Consent: Yes No

Received from: Patient

Consent Given by: Patient | Parent | Legal guardian

Patient Location: Home | Clinic | Hospital | Other

Patient Tracking

New Reading: 0 data found

Screening

New Reading: 0 data found

Visit Information

Chief Complaint: None

Recent Visits with Susan D Apkon, MD: None

Other Visits in Pediatrics: None

Recent and Upcoming Surgeries with Susan D Apkon, MD: No covers to display

6. Create the visit note by clicking on the **Progress Notes** section and selecting either the **Create Note in Notewriter** or **Create Note**.
